

FIND TOTAL AWARENESS, AND SELF AND GOD REALIZATION THROUGH THE ANCIENT SCIENCE OF OUT OF BODY TUZA (SOUL) TRAVEL

Only the Bold, Adventurous, Resourceful and Cunning Will Truly Find God!

Find out why Prayer, Meditation and Astral Projection are all traps and why Tuza (Soul) Travel and a true Spiritual Traveler is the Answer to finding Total Awareness and Self and God Realization in this lifetime.

Are you sick of being promised truth and the Heavenly God Worlds at some undisclosed future time with no proof or little if any personal experiences to back it up? Are you dissatisfied with the experiences you have had and feel there must be more? Are you told over and over again to just have faith and trust the group, some book that is claimed to be the word of God, or some leader who wants to

spoon feed you his truth. Often, but not always, there will be threats that if you don't "**Believe**" you will be in big trouble! Often there will be promises that if you **believe** great rewards will come to you. Often you are told to be patient, that it may take many, many long years if ever, or only when your physical body dies.

Now if you want to take others word for truth you are certainly entitled to that...but for those bold and adventurous Souls who desire to experience Self Realization and God Realization and truly see the face of God there is VARDANKAR the Ancient Science of Total Awareness and Tuza (Soul) Travel where we learn through our own volition to leave our physical bodies as Soul (A 360 degree viewpoint) and experience the various planes or worlds of God known to the Ancient VARDAN Masters as the God worlds These worlds are more real than your day to day life and experiencing them is not "escaping from life" but living it. You may for example visit the pure positive God worlds above M.E.S.T. matter, energy, space and time!

These are the worlds of pure Beingness, Seeing and Knowing where only our true self Soul, our eternal self may venture. We can learn to die daily in the body and venture into these high, high God worlds and come back down safely with recall. We then learn what the saints have always known and why they said to seek first the kingdom of Heaven and all else will be given unto thee!

All Love, Wisdom, Power and Freedom exist in these pure positive God worlds and we gain spiritual freedom only by being present and conscious of them and operating from these high, high states. They are places more real than this Earth world and leaving one's body is as natural as breathing to the ready Soul who desires God in this lifetime!

We then become like the hound of heaven and clamor for God Realization for we are now on the path beyond reincarnation, beyond meditation, beyond cosmic consciousness and all the works of the universal mind power that is primarily dual in nature meaning positive and negative or in the field of opposites. (I.E. mountains and valleys, love and hate, darkness and light, etc).

Through a series of spiritual exercises only known to the practitioners of the path of VARDANKAR you too can learn to reach Total Awareness and come to terms with your eternal all-knowing nature as a God being. We cannot become God of course but we can become fully conscious agents of God and in this we live, move and have our being with in the pure positive God worlds.

We transcend the lower bodies . . . the physical body, the astral or emotional body, the causal or memory body, the mental or mind body and the etheric or subconscious body. We leave the worlds of time and space, or duality where mountains and valleys exist in opposition to one another and we find truth in the pure positive God worlds as pure eternal Soul a particle of God or HURAY!

From here we are spiritually free to experience life from a 360 degree viewpoint and see and know all things from direct perception. We are free to travel into any and all of the worlds of God and at the same time maintain our physical bodies as vehicles for spirit or what we call in VARDANKAR the VARDAN.

We do this through a system only known to the practitioners of this ancient Science. This system is known as VARDANKAR and it is the most direct path back to God; not the only path but the most direct. All other paths are offshoots of VARDAN.

This system differs from meditation and traditional paths in many ways and its purpose is only for the Soul that desires deeply to return to God as a conscious agent of God or what we call in VARDANKAR the HURAY.

God is so beyond man's conceptions and understanding that man created a false ideal and worships the lower rulers or manifestations of God. Man often sees God as a male generally filled with light and great wisdom and power. Man knows nothing and Religion, Metaphysics, psychic studies and philosophy do not lead directly to the God experience anymore then taking a cooking class will lead to the God Realization experience.

For one to see the actual face of God one must be under the tutelage of a true spiritual traveler who has already made the journey back to God. Only he can show the way. We must empty our minds of all we have learned before and begin anew to realize that we must die daily during our spiritual exercises. The Inner Master who is the true spiritual traveler and identical to spirit or the VARDAN will, with our permission take us out of our physical bodies during the dream state and during our spiritual exercises. We may visit a Golden Wisdom Temple of VARDAN or we may visit any number of places for our education. The difference is we are no longer seeking knowledge of the lower orders but seeking the pure positive God worlds and so the experience will take on an entirely different direction for now we are walking the direct path back to God rather than the indirect path.

The lower worlds are constructed so that we may wander in for example the mid astral plane for centuries believing we have reached heaven only to discover that the astral body will wear out in time (albeit it lasts longer) and we must incarnate back on

Earth or one of the other planets.

When one realizes that the wheel of 84 moves around and around lifetime after lifetime on the Zodiac they begin to see that life in the lower worlds is empty without VARDANKAR the Ancient Science of Tuza (Soul) travel; for without the ability to partake of the divine wisdom of God and the VARDAN Masters at its highest levels we are only learning psychic magic tricks and existing in the spiritual material worlds as the un-awakened, sleeping and unconscious Soul.

Once we begin to wake up life becomes an adventure of the highest order! We cease to look at life as opinion and dogmatic beliefs and gain our own personal experience in the God worlds.

The following chart is a very simplified version of the God Heavens/Worlds of VARDANKAR chart. You can view more detailed charts at www.VARDANKAR.com Please note the dividing line between the psychic and Spiritual Worlds found between the Etheric and the Soul plane. This shows the division between the Spiritual Material worlds, a mixture of mind, Spirit and Matter and the pure positive God worlds. In the lower worlds (below the dividing line on the chart) Souls exist encumbered by a series of lower bodies or sheaths such as the Physical, Astral, and Causal body as well as the Mental Body and Etheric (high mind or sub-conscious body.) These bodies act as transformers, Soul uses these bodies because Soul has such a high vibration that IT needs them as a deep sea diver needs a diving suit in order to interact down at sea. However, Soul must learn to separate from the lower self in order to find spiritual liberation. This is accomplished through VARDANKAR the path of personal experience.

We discover in time that the true VARDAN initiate always dwells in the pure positive God worlds and we become fully conscious of these higher worlds and eventually take our rightful place as conscious co-workers with God or the HURAY.

In VARDANKAR we make contact with the returning wave of the audible life stream and use this and the Inner Master to find Total Awareness through direct and personal experience.

Then we live move and have our being in the VARDAN or spirit and have our feet on Earth but our consciousness dwelling in the pure positive God worlds. We then use our bodies as servants rather than Masters.
